

Peer Observation of Teaching – Observation Proforma

For academic staff, this observation proforma may also be completed in the Physics database.

University guidance on peer observation of teaching can be found at:

<https://www.dur.ac.uk/learningandteaching.handbook/7/5/4/>

If you are being observed, you may wish to agree in advance with your observer which aspects of the session you would particularly like feedback on.

If you are observing, try to sit where you can see both the students and your colleague. You may, for example, wish to consider: inclusivity; rapport and student focus; content and structure; audibility and clarity; pace and timing; use of visual aids; and the quality and relevance of examples.

Observee's name: _____

Observer's name:

Date and time of class: _____

Student group size (approx.):

Course: _____ Location of class: _____

Topic of class:

Continue doing the following (examples of effective practice):

Start doing the following (suggestions for future development):

Stop doing the following (habits or approaches to avoid):
